The purpose of this amendment is to answer questions from a potential offeror.

1. Reading the description, most of the experimental work will be done at the NRL facility. Are there specific requirements for the contractor to possess or purchase any of the needed equipment or software programs such as Zemax, Labview, etc?

It is not necessary for the potential offeror to possess or purchase any needed equipment or software programs for work conducted at NRL. Any work conducted at the contractor site, however, must be supported with the necessary facilities.

2. Sec L-14 (2) – pg 61 says: “It is essential for the offeror to demonstrate that all key personnel have obtained a TOP SECRET clearance.” The SOO states that “Some of the tasking under the effort will be required to be performed at the Secret Level.” Can you clarify? Do we have to demonstrate that secret clearances are already issues to the people, or only obtainable? Does NRL intend to help people to obtain the needed clearances?

Section L-14 (2) is corrected to read: “It is essential for the offeror to demonstrate that all key personnel have obtained a SECRET clearance.”

It is necessary for offerors to demonstrate possession of clearances by the key personnel at time of proposal. Currently, NRL Security does not sponsor contractors for security clearances.

3. All other terms and conditions remain unchanged.
