**44 weeks** after effective date of delivery order  
To be defined in each task order  
To be defined in each task order

Q1. *In Section B (page 4), four SubCLINs are identified (0006AA – 0006AD). In Section F(b) (page 24), five SubCLINs are identified in the delivery schedule, including 0006AE. Based on other CLINs, the ambiguous fifth SubCLIN would be the CDR. Please confirm that the CDR is not required for the Spare Antenna System, and confirm the delivery schedule for CLIN 0006. As written, Fabrication and Assembly of the Spare Pedestal is required 6 weeks after option exercise, which is difficult and not in-line with other CLIN delivery schedules (36 weeks).*

**A1. CDR is not required for the Spare Antenna Pedestal System. The delivery schedule has been revised to correct the ambiguity.**

Q2. *Packaging of spare parts shall be in accordance with MIL-P-116, Level A, Method 1A8. Packaging containers shall conform to the carrier rules and regulations applicable to the mode of transportation used. It is our understanding that the above packaging requirement has been cancelled and superseded by MIL-STD-2073. Please clarify the necessary standard for packaging, whether it is MIL-P-116 or MIL-STD-2073.*

**A2. The solicitation has been amended to correct this.**
