The maximum quantity that the Government may order during the effective period of the contract is research and development support requiring the contractor to provide a level of effort of 39,780 direct labor hours.

The minimum and maximum quantities may consist of any combination of the tasks contained in the statement of work.

SECTION C

DESCRIPTION/SPECIFICATIONS/STATEMENT OF WORK

C-1 STATEMENT OF WORK

The work and services to be performed hereunder shall be subject to the requirements and standards contained in Attachment (1), Performance Work Statement (PWS) with Exhibit A, Contract Data Requirements List, Attachment (2) Quality Assurance Surveillance Plan (QASP), and all other Attachments cited in Section J, which are incorporated by reference into Section C.

C-2 CONTRACTS FOR SERVICES

Pursuant to DFARS 211.106 contractor employees shall identify themselves as contractor personnel by introducing themselves or being introduced as contractor personnel and displaying distinguishing badges or other visible identification for meetings with Government personnel. In addition, contractor personnel shall appropriately identify themselves as contractor employees in telephone conversations and in formal and informal written correspondence.

C-3 REQUIREMENTS FOR ON-SITE CONTRACTORS

For any work under this contract performed at any NRL site, the contractor shall comply with the following:

1. ACCESS TO NRL

(a) PARKING/DELIVERIES

Parking at all Naval Research Laboratory (NRL) sites may be limited. This may require the Contractor to provide alternate means of transportation to and from the site. Contracts that will require deliveries of construction type building material or heavy equipment and contractor escorts should contact the Security office as identified in the contract to make prior arrangements for admission to the NRL.

(b) BADGES AND VEHICLE PASSES

All contractor personnel who visit or work on any NRL site or facility must comply with all NRL access requirements. Contractor personnel nominated for access to NRL facilities must process through the NRL Personnel Security Section. Processing includes the completion and submission of all forms and background documentation required by the NRL Security Department. The forms and background documentation will be reviewed to determine whether nominated contractor

employees meet the requirements for a favorable trustworthiness determination. A favorable trustworthiness determination is required in order for nominated contractor personnel to be granted access to NRL facilities and issued an NRL badge. NRL issued Contractor badges must be worn and readily visible at all times while contractor personnel are on NRL facilities. Having a current foreign passport (among other factors) may result in an unfavorable trustworthiness determination.

NRL badges, vehicle passes, keys and other government property issued to contractor personnel must be immediately returned to NRL upon (1) completion or termination of the contract; and (2) termination of employment. Contractor employees shall comply with the check-in/check-out procedures in NRLINST 12290.1(as revised). In part, this instruction provides the procedures for the return of badges, decals, and parking passes. Failure to return NRL Contractor Badges in accordance with NRLINST 12290.1(as revised) may preclude the issuance of any additional badges to contractor employees supporting the same contract until all unaccounted for badges have been returned.

Contractors may also receive an unfavorable past performance determination or negative responsibility determination as a result of non-compliance with this provision.

(c) NRL HOURS OF OPERATION AND HOLIDAY SCHEDULE

All or a portion of the effort under this contract will be performed on a Government Installation. The normal workweek will be established by the Contracting Officer Representative (COR) or Authorized Government Representative (AGR) identified in the contract. No deviation in the normal established workweek will be permitted without express advance approval in writing by the COR or AGR. In the event the Contractor fails to observe the established workweek, any costs incurred by the Government resulting there from shall be chargeable to the Contractor.

The following federal holidays are authorized exceptions to the normal workweek:

NAME OF HOLIDAY	TIME OF OBSERVANCE
New Years Day	1 January
Martin Luther King Jr. Day	Third Monday in January
Washington's Birthday	Third Monday in February
Memorial Day	Last Monday in May

Independence Day	4 July
Labor Day	First Monday in September
Columbus Day	Second Monday in October
Veterans Day	11 November
Thanksgiving Day	Fourth Thursday in November
Christmas Day	25 December

Any other day designated by federal statute, Executive Order, or Presidential Proclamation.

In the event that any of the above holidays occur on Saturday or Sunday, the holiday must be observed by the Contractor in accordance with the practice observed by the assigned Government employees at the using activity.

Contractor personnel performing work under this contract at any NRL site shall limit their observation of holidays to those set forth above. In the event Contractor personnel work during a holiday other than those above, no form of holiday or other premium compensation will be reimbursed as either a direct or indirect cost. However, this does not preclude reimbursement for authorized overtime work.

When any NRL site grants emergency administrative leave to its Government employees, Contractor personnel performing effort at that NRL site must also be dismissed. However, the contractor shall continue to provide sufficient personnel to perform requirements of critical efforts already in progress or scheduled at the Laboratory.

2. TEXTBOOKS AND/OR REFERENCE MATERIALS

The Contractor shall return all textbooks and reference materials checked out from any NRL Library to that Library at the completion of the individual's performance or contract performance in accordance with NRLINST 12290.1 (as revised), Check-In, Check-Out, and Intra-Laboratory Reassignment Procedures.

If the contractor has more than one contract requiring on-site work, the annual updated list may be consolidated to include all contracts by number and the names of the on-site personnel working with each.

H-5 ORGANIZATIONAL CONFLICTS OF INTEREST

(a) Definitions.

The term "contractor" includes the Contractor and its employees, affiliates, marketing consultants (if any), consultants, and subcontractors at all tiers.

"Organizational Conflict of Interest" ("OCI") means that because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice to the Government, or the person's objectivity in performing the contract work is or might be otherwise impaired, or a person has an unfair competitive advantage. FAR 2.101. An OCI may result when (1) activities or relationships create an actual or potential conflict of interest related to the performance of the Statement of Work (SOW) of this Contract; or, (2) when the nature of the SOW on this Contract

creates an actual or potential conflict of interest with respect to the Contractor in relation to a future acquisition.

“Marketing consultant,” means any independent contractor who furnishes advice, information, direction, or assistance to an offeror or any other contractor in support of the preparation or submission of an offer for a Government contract by that offeror. An independent contractor is not a marketing consultant when rendering— (1) Services excluded in FAR Subpart 37.2; (2) Routine engineering and technical services (such as installation, operation, or maintenance of systems, equipment, software, components, or facilities); (3) Routine legal, actuarial, auditing, and accounting services; and (4) Training services.

(b) In accordance with the guidance in FAR Subpart 9.5, the Contracting Officer has determined that potentially significant organizational conflicts of interest (OCIs) could result if the Contractor is allowed to participate (at any level) in future Federal Government acquisitions that include requirements that may be established or affected by the performance of the Statement of Work (SOW) by the Contractor under this Contract.

(c) It is understood and agreed that the Contractor may be ineligible (unless expressly exempted as provided in FAR Part 9.5) to act as a prime contractor, subcontractor, or consultant or subcontractor to any prime contractor or subcontractor at any tier, for any future requirements (for services, systems, or components of systems) procured by any Federal Government activity where the Contractor, in performance of the SOW under this Contract, has provided or is providing support (as described in FAR 9.505-1 through 9.505-4) that establishes or affects future requirements or may affect the future competition.

(d) The contracting officer responsible for securing future requirements, in his/her sole discretion, may make a determination to exempt the Contractor from ineligibility as described in subparagraph (c) above provided the Contractor submits an acceptable mitigation plan.

(1) Items for consideration in a mitigation plan include the following: identification of the organizational conflict(s) of interest; a reporting and tracking system; an organizational conflict of interest compliance/enforcement plan, to include employee training and sanctions, in the event of unauthorized disclosure of sensitive information; a plan for organizational segregation (e.g., separate reporting chains); data security measures; and, non-disclosure agreements.

(2) The Government's determination regarding the adequacy of the mitigation plan or the possibility of mitigation is a unilateral decision made solely at the discretion of the Government and is not subject to the Disputes clause of the contract. The Government may terminate the contract for default if the Contractor fails to implement and follow the procedures contained in any approved mitigation plan.

(3) Nothing contained herein shall preclude the contracting officer in future Federal Government acquisitions from making his/her own determination as to whether an OCI exists and whether any such OCI has been successfully mitigated.

(e) The Contractor shall apply this clause to any subcontractors or consultants who: have access to proprietary information received or generated in the performance of this Contract; and/or, who participate in the development of data, or participate in any other activity related to this Contract which is subject to the terms of this clause at the prime contractor level.

(g) The Contractor agrees that it and its subcontractors at all levels shall use reasonable diligence in protecting proprietary data/information that is received or generated in performance of this Contract in accordance with this clause and any other clause of this Contract pertaining to the nondisclosure of information. The Contractor further agrees that neither it nor its subcontractors will willfully disclose proprietary data/information that is received or generated in the performance of this Contract without the prior permission of the Contracting Officer, and that proprietary information shall not be duplicated, used or disclosed, in whole or part, for any purpose other than to accomplish the work required by the Contract.

(f) The Contractor and its Subcontractors at all levels shall inform their employees that they are required to comply with the applicable requirements and restrictions contained in: restrictive markings applicable to data/information that they receive or generate in the performance of this Contract; FAR Subpart 9.5 pertaining to actual or potential OCIs; FAR 3.104 pertaining to requirements and restrictions under the Procurement Integrity Act; and, Defense FAR Supplement (DFARS) 252.204-7000 pertaining to "Disclosure of Information."

(h) The Contractor agrees to enter into written agreements with all companies whose proprietary data it shall have access to and to protect such data from unauthorized use or disclosure as long as it remains proprietary. The Contractor shall furnish to the Contracting Officer copies of these written agreements. The Contractor agrees to protect the proprietary data and rights of other organizations disclosed to the Contractor during performance of this Contract with the same caution that a reasonably prudent Contractor would use to safeguard its own highly valuable property. The Contractor agrees to refrain from using proprietary information for any purpose other than that for which it was furnished.

(i) The Contractor shall not distribute reports, data or information of any nature received or arising from its performance under this Contract, except as provided by this Contract or as may be directed by the Contracting Officer.

(j) The Contractor agrees that if in the performance of this Contract it discovers a potential OCI, a prompt and full disclosure shall be made in writing to the Contracting Officer. This disclosure shall include a description of the actions the Contractor has taken, or proposes to take, to avoid or mitigate such conflicts.

H-6 SPECIAL CONTRACT REQUIREMENT REGARDING NON-DISCLOSURE OF INFORMATION

Data includes all data, information and software, regardless of the medium (e.g. electronic or paper) and/or format in which the data exists, and includes data which is derived from, based on, incorporates, includes or refers to such data. In the course of performing this Contract, the Contractor may be or may have been given access to: Source Selection Information [as defined in Federal Acquisition Regulation (FAR) 3.104]; data that has been assigned (or data that is generated by the Contractor that should be assigned) a contractually required or other Government distribution control (such as a Distribution Statement prescribed in DoD Directive 5230.24); and/or data that has been given a restrictive legend by the source of the data such as “business sensitive,” “proprietary,” “confidential,” or word(s) with similar meaning that impose limits on the use and distribution of the data (see for example FAR 52.215-1(e)). All such data with limitations on use and distribution are collectively referred to herein as “protected data.”

This Special Contract Requirement supplements and implements Defense FAR Supplement (DFARS) 252.204-7000, “DISCLOSURE OF INFORMATION.” As a condition to receiving access to protected data, the Contractor shall: (1) prior to having access to protected data, obtain the agreement of the source of the protected data to permit access by the Contractor to such protected data; (2) use the protected data solely for the purpose of performing duties under this Contract unless otherwise permitted by the source of the protected data; (3) not disclose, release, reproduce or otherwise provide or make available the protected data, or any portion thereof, to any employee of the Contractor unless and until such employee has been informed of the restrictions on use and distribution of the protected data and agreed in writing to conform with the applicable restrictions; (4) not disclose, release, reproduce or otherwise provide or make available the protected data, or any portion thereof, to any non-Government person or entity (including, but not limited to, affiliates, subcontractors, successors and assignees of the Contractor), unless the Contracting Officer and the source of the protected data have given prior written approval (which shall be conditioned upon the person receiving the protected data having been informed of the restrictions on use and distribution of the protected data and having agreed in writing to conform with the applicable restrictions; (5) establish and execute safeguards to prevent the unauthorized use or distribution of protected data.

Any unauthorized use, disclosure or release of protected data may result in substantial criminal, civil and/or administrative penalties to the Contractor or to the individual who violates a restriction on use or distribution of protected data. Any agreement with another company regarding access to that company’s protected data shall not create any limitation on the Government or its employees with regard to such data. A copy of each executed company and individual non-disclosure agreement relating to this Contract shall be provided to the Contracting Officer’s Representative (COR).

Appropriate restrictive legends will be included by the Contractor on any copies and reproductions made of all or any part of the protected data and any data that is derived from, based upon, incorporates, includes or refers to the protected data. When the Contractor’s need for such protected data ends, the protected data shall be returned promptly to the source of the protected data with notice to the COR. However, the obligation not to use, disclose, release, reproduce or otherwise provide or make available

such protected data, or any portion thereof, shall continue, even after completion of the Contract, for so long as required by the terms of any agreement pertaining to the protected data between the Contractor and the source of the protected data, or (in the case of Government information) for so long as required by applicable law and regulation. Any actual or suspected unauthorized use, disclosure, release, or reproduction of protected data or violation of this agreement, of which the company or any employee is or may become aware, shall be reported promptly (within one business day after discovery and confirmation) to the Contracting Officer's Representative (COR).

H-7 LEVEL OF EFFORT TASK ORDERS

(a) In the performance of each term form task order issued under this contract, the Contractor agrees to provide the level of effort specified in the task order and in accordance with this provision.

(b) It is understood and agreed that the rate of direct labor hours expended each month may fluctuate in pursuit of the technical objective, provided such fluctuation does not result in the use of the total hours of effort prior to the expiration of the term of the task order. The Contractor is required to notify the Contracting Officer when 85% of the total level of effort of the task order has been expended.

(c) If, during the term of the task order, the Contractor finds it necessary to accelerate the expenditure of direct labor under the task order to such an extent that the total hours of effort specified would be used prior to the expiration of the term, the Contractor shall notify the Contracting Officer in writing setting forth the acceleration required, the probable benefits which would result, and an offer to undertake the acceleration at no increase in the estimated cost or fixed fee together with an offer setting forth a proposed level of effort, cost breakdown, and proposed fixed-fee for continuation of the work until expiration of the term of the task order. If the maximum amount specified in the contract is not adequate to accommodate the anticipated accelerated expenditure of direct labor, the Contractor shall also include in its offer a proposed increase of the maximum amount, cost breakdown, and proposed fixed-fee for the increase. The offer shall provide that the work proposed will be subject to the terms and conditions of this contract and any additions or changes required by current law, regulations, or directives, and that the offer, with a written notice of acceptance by the Contracting Officer, shall constitute a binding contract. The Contractor shall not accelerate any effort until receipt of such written approval by the Contracting Officer. Any agreement to accelerate will be formalized by modification of the order and, if necessary, the contract.

(d) The Contracting Officer may, by written order, direct the Contractor to accelerate the expenditure of direct labor under a task order such that the labor hours of effort specified therein would be used prior to the expiration of the term. This order shall specify the acceleration required and the resulting revised term. The Contractor shall acknowledge this order within ten days of receipt.

(e) If the total level of effort specified in each task order is not provided by the Contractor during the term of the task order, the Contracting Officer shall either (i) reduce the fixed fee of the task order as follows:

Fee Reduction = Fixed Fee x $\frac{\text{Required LOE Hours} - \text{Expended LOE Hours}}{\text{Required LOE Hours}}$

Required LOE Hours

The offeror shall provide exhibits as necessary to substantiate each cost element. Should rates be used in the proposal which are not DCAA approved, the offeror shall provide complete documentation and the rationale for their use at time of proposal submission. Participation to be identified may be in the form of a joint venture, teaming arrangement, or subcontract. Information provided should include the extent of participation of such firms in terms of the value of the total acquisition and the complexity and variety of the work such firms are to perform.

L-15 POTENTIAL ORGANIZATIONAL CONFLICTS OF INTEREST

Pursuant to FAR 9.5 and the definitions provided therein:

(a) Definitions

Organizational Conflict of Interest: FAR 2.1 defines “Organizational Conflict of Interest” as a situation in which “...because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice to the government, or the person’s objectivity in performing the contract work is or might be otherwise impaired, or a person has an unfair competitive advantage.” For the purposes of this contract, the term Organizational Conflict of Interest

means that a relationship exists between the contractor (including the successor-in-interest, assignee or affiliated divisions, subsidiaries, employees, consultants, or subcontractors, hereinafter referred to as "Contractor") and another in which the underlying interests of the contractor and the other party directly or indirectly (1) may influence, affect or diminish the contractor's ability to give impartial, technically sound, objective assistance, conclusions, advice or recommendations, or may otherwise result in a biased work product to or for the Government, or (2) may result in an unfair competitive advantage.

(b) Purpose

The primary purpose of this clause is to ensure that the Contractor (1) does not obtain an unfair competitive advantage over other parties by virtue of its performance of this contract, and (2) is not biased because of its current or planned interests (financial, contractual, organizational or otherwise) which relate to the work under this contract.

(c) Description of the Effort

This contract is for research and development activities in support of various NRL Programs. In the performance of this contract, the contractor may be required to make certain findings, conclusions and recommendations to the Government. The Contractor may also be required to have access to other Contractor's proprietary data in order to make those findings, conclusions and recommendations to the Government. Because the Government requires total objectivity and impartiality in performance of this contract, the contractor must be free from any biased influences and interests which will impact, directly or indirectly, on the contractor's decision making process.

(d) Nature of Conflict

Areas of potential conflicts could include, but are not limited to, the following areas as defined in FAR 9.505:

1. Providing systems engineering and technical direction,
2. Preparing specifications or work statements,
3. Providing evaluation services, and
4. Obtaining access to proprietary information.

(e) Disclosure Statement

If the Offeror is aware of circumstances that may hinder its ability to render impartial, technically sound, and unbiased assessments, recommendations and/or evaluations; or that circumstances exist that may result in the appearance that it may have any unfair competitive advantage, the offeror shall provide a full disclosure statement. The statement must describe in a concise manner all relevant facts concerning any past, present or currently planned interest (financial, contractual, organizational, or otherwise) relating to the work to be performed hereunder and bearing on whether the offeror has a possible organizational conflict of interest with respect to (1) impartial, technically sound, and unbiased assessments, recommendations and/or evaluations, or (2) being given an unfair competitive advantage.

Prospective Offerors should refer to FAR 9.5 for policies and procedures for avoiding, neutralizing, or mitigating organizational conflicts of interest. If the Offeror is not aware of any circumstances of this nature, then the Offeror shall provide a statement stating such.

The government will review the statement submitted and may require additional relevant information from the offeror. All such information and any other relevant information will be used by the government to determine whether an award to the offeror may create an organizational conflict of interest. If found to exist, the Government may (1) impose appropriate conditions which avoid such conflict, (2) disqualify the offeror, or (3) determine that it is otherwise in the best interest of the Government to contract with the offeror by including appropriate conditions mitigating such conflict in the contract awarded.

The refusal to provide the disclosure of any additional information as required shall result in disqualification of the offeror for award. The nondisclosure or misrepresentation of any relevant interest may also result in the disqualification of the offeror for award, or if such nondisclosure or misrepresentation is discovered after award, the Government may terminate the contract for default, recommend that the contractor be disqualified from subsequent related contracts, or be subject to such other remedial actions as may be permitted or provided by law. The attention of the offeror in complying with this provision is directed to 18 U.S.C. 1001 and 31 U.S.C. 3802(a)(2).

Depending on the nature of the contract activities, the offeror may, because of possible organizational conflicts of interest, propose to exclude specific kinds of work from the statement, unless the solicitation specifically prohibits such exclusion. Any such proposed exclusion by an offeror shall be considered by the Government in the evaluation of proposals, and if the Government considers the proposed excluded work to be an essential or integral part of the required work, the proposal may be rejected as unacceptable.

No award shall be made until the disclosure has been evaluated by the Government. Failure to provide the disclosure will be deemed to be a minor informality and the offeror or contractor shall be required to promptly correct the omission.

If the Contracting Officer determines that a potential conflict exists, the prospective offeror shall not receive an award unless the conflict can be avoided or otherwise resolved through the inclusion of a special contract clause or other appropriate means, i.e., government approved corporate mitigation plan. The terms of this clause are subject to negotiation.

SECTION M

EVALUATION FACTORS FOR AWARD

M-1 EVALUATION

(a) Award will be made to the responsible offeror whose proposal is determined to provide the best overall value to the Government in accordance with the established criteria and rating methodology set forth in Section M-2 below.

(b) Selection will be based on a complete assessment of each offeror’s technical proposal, past performance information and cost proposal. Within the best value continuum, the Government will employ a Price/Technical Tradeoff analysis of both price and non-price factors (FAR 15.101-1) in evaluating each proposal submitted. The Technical Factors are listed in decreasing order of importance (Table at M-2(a)). The non-price evaluation criteria (technical, past performance and small business participation), when combined, are significantly more important than cost or price. However, as non-price factors become closer in perceived value, cost considerations will become more important. Trade-off considerations may result in the determination that it is in the best interest of the Government to award to other than the lowest priced offeror or other than the highest technically rated offeror.

(c) To be considered for award, a rating of no less than “Acceptable” must be achieved for the technical factors.

M-2 EVALUATION FACTORS FOR AWARD

Proposals will be evaluated in accordance with the following criteria. All evaluation factors other than cost or price, when combined, are significantly more important than cost or price.

(a) The following chart depicts the Evaluation Factors to be used:

NON-PRICE FACTORS
Technical Factors
Company Experience
Personnel Qualifications
Management Ability
Other Non Cost Factors
Past Performance
Small Business Factor
Cost Factor

(b) Adjectival Ratings/Definitions:

1. The following adjectival ratings and rating definitions will be used to assign an overall rating to each technical proposal except Past Performance:

Table 1. Combined Technical/Risk Ratings		
Color	Rating	Description
Blue	Outstanding	Proposal meets requirements and indicates an exceptional approach and understanding of the requirements. Strengths far outweigh any weaknesses. Risk of unsuccessful performance is very low.
Purple	Good	Proposal meets requirements and indicates a thorough approach and understanding of the requirements. Proposal contains strengths which outweigh any weaknesses. Risk of unsuccessful performance is low.
Green	Acceptable	Proposal meets requirements and indicates an adequate approach and understanding of the requirements. Strengths and weaknesses are offsetting or will have little or no impact on contract performance. Risk of unsuccessful performance is no worse than moderate.
Yellow	Marginal	Proposal does not clearly meet requirements and has not demonstrated an adequate approach and understanding of the requirements. The proposal has one or more weaknesses which are not offset by strengths. Risk of unsuccessful performance is high
Red	Unacceptable	Proposal does not meet requirements and contains one or more deficiencies. Proposal is unawardable.

2. Definitions: The following definitions are provided to assist evaluators in the evaluation of each factor.

Definitions	
Strength	A proposed method or technique in the proposal that exceeds the solicitation requirements and is of value to the Government.
Weakness	A flaw in the proposal that increases the risk of unsuccessful contract performance.
Significant Weakness	A flaw that appreciably increases the risk of unsuccessful contract performance.
Deficiency	A material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level.

(c) Rating Methodology

All proposals shall be subject to evaluation by a team of Government personnel.

1. The evaluation will be based on a complete assessment of the offeror's technical proposal, past performance information and price proposal. Technical is significantly more important than non-price evaluation criteria and when combined, are significantly more important than price. However, price becomes more important as non-price factors become equal.

Non price technical proposal will be evaluated on the following three (3) factors which are ranked in the following order of importance: Company Experience, Personnel Qualifications and Management Ability.

Other non-price proposals will be evaluated on the following two (2) factors which are ranked in the following order of importance: Past Performance being more important than the Small Business Participation factor.

2. Proposals will be assessed on how well each offeror's proposal meets the solicitation requirements and the risks associated with the offeror's approach. Determining how well the offeror's proposal meets the solicitation requirements will be accomplished in two steps. First, a determination will be made if the offeror's proposal meets the solicitation requirements. Next, the discriminators will be identified for the proposals reflecting the unique strengths, weaknesses, significant weaknesses, and deficiencies of each offer. In addition, the Government will examine the impact of each discriminator and assess its relative value to the Government. In order to make a sound selection decision, the Government needs to understand the ways in which a given proposal is considered technically strong, as well as the ways in which it is weak or deficient. Hence, a catalog of the strengths, weaknesses, and deficiencies (in terms of the evaluation criteria) will be utilized to facilitate the process of determining which proposal presents the best overall value to the Government.

3. The offerors will receive one overall rating value for the technical and non-price proposal evaluation factors. Price, while being an important factor, is not in and of itself the determining factor in the selection of the successful offeror for award of the contract contemplated by this solicitation. The Contracting Officer may reasonably determine that the superior experience, qualifications or management approach merits a higher price, and therefore represents the best value to the Government. The Contracting Officer, using sound business judgment, will base the selection decision on the integrated assessment of the Offeror(s)' technical non-price factors and price factor measured against the evaluation criteria listed below:

4. Evaluation of Technical Proposal:

COMPANY EXPERIENCE: The proposal will be evaluated on the offeror's demonstrated company experience in performing projects with scientific and technical tasks similar in size, scope and complexity to those required in the Performance Work Statement. The documentation should be sufficient to support both the prime and subcontractors' breadth and depth of experience as it relates to the Performance Work Statement and should clearly demonstrate (1) the relationship between the company's experience and the tasks required and (2) prior or current programs in the task areas.

PERSONNEL QUALIFICATIONS: The proposal will be evaluated on the offeror’s demonstrated ability to provide personnel with relevant experience, education and training in the scientific research and technical areas described in the Performance Work Statement. These areas are highly specialized and personnel without actual experience in these areas are not acceptable. The proposal must indicate the specific personnel to be assigned to this effort. Specifically, the proposal should detail each person’s background, qualifications and pertinent experience as it relates to the relevant area of the Statement of Work. The proposal should specify the amount of effort each person will be performing on this contract, both by the prime contractor, as well as, any proposed subcontractors.

MANAGEMENT ABILITY: The proposal will be evaluated on the offeror’s demonstrated management ability and success in managing projects of similar complexity and duration as that set forth in the Performance Work Statement, including organizational structure, corporate commitment, communication approach, feedback approach, corrective action procedures, short notice response capability, plan for long term tasks and a detailed Transition Plan that outlines his strategy for assuring a smooth and effective transition.

5. Evaluation of Other Non-Price Factors

PAST PERFORMANCE: Offeror’s will be evaluated based on past performance information presented in their proposals (including past performance reports) and on information obtained by contacting the Offeror’s supplied references relative to current projects or those completed within the last five (5) years. In addition, the Contracting Officer has the discretion to retrieve information via offeror supplied references, commercial sources, and federal sources. The past performance evaluation will assess the degree of confidence the government has in an offeror’s ability to satisfactorily meet the requirements of the contract based on the offeror’s demonstrated record of performance. The past performance evaluation will consider each offeror’s demonstrated recent and relevant record of performance in supplying products and services that meet the contractor’s requirements. Past performance information reviewed will pertain to work performed that is similar to that required by the Statement of Work. In determining relevance, consideration will be given to contracts of similar project complexity, scope, type and schedule. Offeror’s Past performance will be evaluated on the basis of the quality of the work performed, timeliness of the performance, effectiveness of management, compliance with cost/price estimates, customer satisfaction, and overall performance. An offeror with no relevant past performance information will receive a neutral rating, i.e., the rating will not add to or detract from the offeror’s rating for this factor.

Offeror’s past performance will be rated using the evaluation rating scales shown below:

Past Performance Relevancy Ratings	
Rating	Definition
Very Relevant	Present/past performance effort involved essentially the same scope and magnitude of effort and complexities this solicitation requires.
Relevant	Present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires.
Somewhat Relevant	Present/past performance effort involved some of the scope and

	magnitude of effort and complexities this solicitation requires.
Not Relevant	Present/past performance effort involved little or none of the scope and magnitude of effort and complexities this solicitation requires.

Performance Confidence Assessments	
Rating	Definition
Substantial Confidence	Based on the offeror's recent/relevant performance record, the Government has a high expectation that the offeror will successfully perform the required effort.
Satisfactory Confidence	Based on the offeror's recent/relevant performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort.
Limited Confidence	Based on the offeror's recent/relevant performance record, the Government has a low expectation that the offeror will successfully perform the required effort.
No Confidence	Based on the offeror's recent/relevant performance record, the Government has no expectation that the offeror will be able to successfully perform the required effort.
Unknown Confidence (Neutral)	No recent/relevant performance record is available or the offeror's performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned.

SMALL BUSINESS PARTICIPATION: All offerors will be evaluated on the level of small business commitment that they are demonstrating for the proposed acquisition, and their level of commitment to utilizing small businesses in performance of prior contracts. The following shall evidence small business participation:

- a. The extent to which such firms, as defined in FAR Part 19, are specifically identified in proposals;
- b. The extent of commitment to use such firms (enforceable commitments will be weighted more heavily than non-enforceable ones);
- c. The complexity and variety of the work small firms are to perform;
- d. The realism of the proposal;
- e. Past performance of the offeror in complying with requirements of the clauses at FAR 52.219-8, Utilization of Small Business Concerns, and, for all large business offerors, FAR 52.219-9, Small Business Subcontracting Plan;
- f. The extent of participation of such firms in terms of the value of the total acquisition;

The extent to which the offeror provides detailed explanations/documentation supporting the proposed participation percentages, or lack thereof. The Department of Defense (DoD) has established small business goals as an assistance to assure small business receives a fair proportion of DoD awards. The goals for this procurement are as follows: Small Business: 36.7% of the total contract value; Small Disadvantaged Business: 5.0% of the total contract value; Woman-Owned Small Business: 5.0% of the total contract value; Historically Underutilized Business Zone (HUBZone) Small Business: 3.0% of the total contract value; Service Disabled Veteran Owned Small Business: 3.0% of the total contract value. (Note, for example, that a participation plan that reflects 5.0% for Small Disadvantaged Business would also count toward the overall Small Business Goal).

6. Evaluation of Cost Proposal

Volume II of the proposal will be evaluated for cost realism, reasonableness, and completeness of the proposed contract Cost Plus Fixed Fee in accordance with FAR Part 15.404-1. Cost, while being an important factor, is not in and of itself the determining factor in the selection of successful offeror for award of the contract contemplated by this solicitation. The total evaluated amount of the proposed cost plus fixed fee, to include all options, will be used in determining best price.

(a) Realism. The Government may adjust the proposed cost for purposes of evaluation based upon an evaluation of cost realism. Cost Realism means that the costs in an offeror's proposal are realistic for the work to be performed; reflect a clear understanding of the requirements; and are consistent with the various elements of the offeror's technical proposal. The cost realism evaluation includes an analysis of the adequacy of the hours, labor mix, and other direct costs to perform the work as proposed in the technical proposal as well as the proposed labor and indirect rates. It also includes evaluation of the likelihood that the risks inherent in the offeror's technical approach will result in higher actual costs than anticipated.

(b) Completeness. Price proposals shall be evaluated for completeness by assessing the responsiveness of the proposed price, by assessing the level of detail of the offeror-provided cost data for all requirements in the Statement of Work (SOW) and assessing the traceability of estimates. For the cost data to be complete, the offeror, or its subcontractors, must provide all the data necessary to support the offer. The amount of data needed may vary depending on the requirements.
