

**NRL BAA Announcement
76-09-01**

RESEARCH INTO SPACE, BACKGROUNDS, IMAGING AND MODELING

The Naval Research Laboratory (NRL) is interested in receiving proposals that address basic and applied experimental, theoretical and computational research to advance fundamental knowledge in solar-terrestrial physics, atmospheric science, astronomy upper/middle atmospheric science and astrophysics.

The research is conducted by the Space Science Division, and the results are of importance to orbital tracking, radio communications, and navigation that affect the operation of ships and aircraft; utilization of the near-space and space environment of the earth; the Global War on Terrorism, and the fundamental understanding of natural radiation and geophysical phenomena.

Address White Papers (WP) to Code 7602, or [e-mail](#), telephone (202) 767-3248. Allow one month before requesting confirmation of receipt of WP, if confirmation is desired. Substantive contact should not take place prior to evaluation of a WP by NRL. If necessary, NRL will initiate substantive contact.
