The purpose of this amendment is to answer questions received in regards to RFP N00173-00-R-MA02 and to amend the provision at L-12.

The questions have been restated and answered below:

1. Paragraph 4.3.2 states that "Additionally the PA shall maintain a database within the work area in order to ascertain, at any time, production status and job progress as may be requested by the COR or the customer." Is the database the PA is required to maintain part of the LABMIS system or is this a separate PA provided database program?

The database is a separate PA provided database program not part of the LABMIS system.

2. How many simultaneous location photography assignments is the PA required to support?

The PA may be required to support three simultaneous or overlapping location photography assignments at a time. If requests for more than three simultaneous or overlapping location photography assignments are received, the PA may adjust the schedule with the customers and/or set priorities.

Section L-12 VOLUME II – BUSINESS PROPOSAL is amended to delete the requirement to include the material and travel costs in the price proposal. Replacement page 24 of the Solicitation with highlighted changes is included with this Amendment.
