G-2 CONTRACTING OFFICER'S REPRESENTATIVE (COR) - FUNCTIONS AND LIMITATIONS

* is hereby designated the cognizant COR who will represent the Contracting Officer in the administration of technical details within the scope of this contract and inspection and acceptance. The COR is not otherwise authorized to make any representations or commitments of any kind on behalf of the Contracting Officer or the Government. The COR does not have the authority to alter the Contractor's obligations or change the specifications in the contract. If, as a result of technical discussions, it is desirable to alter contract obligations or statements of work, a modification must be issued in writing and signed by the Contracting Officer. The COR is responsible for reviewing the bills and charges submitted by the Contractor and informing the ACO of areas where exceptions are to be taken.

(* To be completed at time of award)

G-3 TECHNICAL DIRECTION MEMORANDUM (TDM)

- (a) For the purposes of this clause, technical direction includes the following:
- (1) Direction to the Contractor which shifts work emphasis between work areas or tasks, requires pursuit of certain lines of inquiry, fills in details or otherwise describes work which will accomplish the objectives described in the statement of work;
 - (2) Guidelines to the Contractor, which assist in interpretation of drawings, specifications or technical portions of, work description.
- (b) Technical instructions must be within the scope of work stated in the contract. Technical instructions may not be used to:
- (1) Assign additional work under the contract;
 - (2) Direct a change as defined in the contract clause entitled "Changes";
 - (3) Increase or decrease the estimated contract cost, the fixed fee, or the time required for contract performance; or
 - (4) Change any of the terms, conditions or specifications of the contract
- (c) The TDM shall be written by the Contracting Officer's Representative (COR), with the original given to the Contractor and a copy retained in the CORs file. Technical direction may be issued orally only in emergency situations. If technical direction is issued orally, a TDM must follow within two (2) working days from the date of the oral direction. Amendments, corrections, or changes to TDMs shall also be in written format and shall include all the information set forth in paragraph (e) below.
- (d) A TDM shall be considered issued when the Government deposits it in the mail, or if transmitted by other means, when it is physically delivered to the contractor.
- (e) TDMs shall include, but not be limited to, the following information:
- (1) Date of TDM,
 - (2) Contract Number,
 - (3) Reference to the relevant portion or item in the Statement of Work,
 - (4) The specific technical direction or clarification, and
 - (5) The signature of the COR.
- (f) CORs shall retain all files containing TDMs for a period of two (2) years after the final contract completion date.
- (g) The only individual authorized in any way to amend or modify any of the terms of this contract shall be the Contracting Officer. When, in the opinion of the Contractor, any technical direction calls for effort outside the scope of the contract or inconsistent with this special provision, the Contractor shall notify the Contracting Officer in writing within ten (10) working days after its receipt.

G-4 SUBCONTRACTORS/CONSULTANTS

- (a) Advance notification or requests for consent pursuant to the contract clause entitled "Subcontracts" (FAR 52.244-2) shall be directed to the cognizant administrative contracting officer (ACO).
- (b) The following subcontractors/consultants have been identified in the Contractor's proposal as necessary for performance of this contract:

Subcontractor/Consultant Name	Estimated Cost
-------------------------------	----------------

(Paragraph (b) will be included and filled in at time of award if subcontractor/consultants are proposed by the successful offeror)

G-5 NAPS 5252.232-9001 - SUBMISSION OF INVOICES (COST-REIMBURSEMENT, TIME-AND-MATERIALS, LABOR-HOUR, OR FIXED PRICE INCENTIVE (JUL 1992))

(a) "Invoice" as used in this clause includes contractor requests for interim payments using public vouchers (SF 1034) but does not include contractor requests for progress payments under fixed price incentive contracts.

(b) The Contractor shall submit invoices and any necessary supporting documentation, in an original and 4 copies, to the contract auditor at the following address:

(To be completed at time of award)

unless delivery orders are applicable, in which case invoices will be segregated by individual order and submitted to the address specified in the order. In addition, an information copy shall be submitted to [See Section G for designated COR]. Following verification, the contract auditor will forward the invoice to the designated payment office for payment in the amount determined to be owing, in accordance with the applicable payment (and fee) clause(s) of this contract.

(c) Invoices requesting interim payments shall be submitted no more than once every two weeks, unless another time period is specified in the Payments clause of this contract. For indefinite delivery type contracts, interim payment invoices shall be submitted no more than once every two weeks for each delivery orders. There shall be a lapse of no more than 30 calendar days between performance and submission of an interim payment invoice.

(d) In addition to the information identified in the Prompt Payment clause herein, each invoice shall contain the following information, as applicable:

- (1) Contract line item number (CLIN)
- (2) Subline item number (SLIN)
- (3) Accounting Classification Reference Number (ACRN)
- (4) Payment terms
- (5) Procuring activity
- (6) Date supplies provided or services performed
- (7) Costs incurred and allowable under the contract
- (8) Vessel (e.g., ship, submarine or other craft) or system for which supply/service is provided

(e) A DD Form 250, "Material Inspection and Receiving Report",

- is required with each invoice submittal.
- is required only with the final invoice.
- is not required.

(f) A Certificate of Performance

- shall be provided with each invoice submittal.
- is not required.

(g) The Contractor's final invoice shall be identified as such, and shall list all other invoices (if any) previously tendered under this contract.

(h) Cost of performance shall be segregated, accumulated and invoiced to the appropriate ACRN categories to the extent possible. When such segregation of costs by ACRN is not possible for invoices submitted with CLIN/SLINS with more than one ACRN, an allocation ratio shall be established in the same ratio as the obligations cited in the accounting data so that costs are allocated on a proportional basis.

G-6 INCREMENTAL FUNDING

Pursuant to the Limitation of Funds clause (FAR 52.232-22), the total amount allotted to this contract is \$* and it is estimated that this amount is sufficient for contract performance through * .

*(*this provision will be included and completed at time of award, if applicable)*

G-7 INFORMATIONAL SUBLINE ITEMS

It is anticipated that the research and development services performed under this contract will be paid for from multiple sources of funds. Informational subline items will be established as necessary to identify each accounting citation classification.

G-8 SPECIAL PAYMENT INSTRUCTIONS- MULTIPLE ACCOUNTING CLASSIFICATION CITATIONS (COST-REIMBURSEMENT)

Payments shall be made in accordance with the ACRN(s) cited on the contractor's invoice. The Contractor may contact the COR regarding which ACRN(s) to cite on an invoice.

*(*To be completed at time of award)*

H-2 ONR 5252.237-9705 - KEY PERSONNEL (DEC 88)

(a) The Contractor agrees to assign to the contract tasks those persons whose resumes were submitted with its proposal and who are necessary to fulfill the requirements of the contract as "key personnel". No substitutions may be made except in accordance with this clause.

(b) The Contractor understands that during the first ninety (90) days of the contract performance period, no personnel substitutions will be permitted unless these substitutions are unavoidable because of the incumbent's sudden illness, death or termination of employment. In any of these events, the Contractor shall promptly notify the Contracting Officer and provide the information described in paragraph (c) below. After the initial ninety (90) day period the Contractor must submit to the Contracting Officer all proposed substitutions, in writing, at least thirty (30) days in advance (sixty (60) days if security clearance must be obtained) of any proposed substitution and provide the information required by paragraph (c) below.

(c) Any request for substitution must include a detailed explanation of the circumstances necessitating the proposed substitution, a resume for the proposed substitute, and any other information requested by the Contracting Officer. Any proposed substitute must have qualifications equal to or superior to the qualifications of the incumbent. The Contracting Officer or his/her authorized representative will evaluate such requests and promptly notify the Contractor of his/her approval or disapproval thereof.

(d) In the event that any of the identified key personnel cease to perform under the contract and the substitute is disapproved, the contract may be immediately terminated in accordance with the Termination clause of the contract.

The following are identified as key personnel: *

*(*To be completed at time of award)*

Labor Category	First/M/Last Name
Research Physicist	

Materials Engineer/Scientist	
Physicist/Electrical Engineer	

H-3 ONR 5252.216-9706 - LEVEL OF EFFORT (DEC 88)

(a) The Contractor agrees to provide the total level of effort specified in the next sentence in performance of the work described in this contract. The total level of effort for performance of this contract shall be **10,300** total hours of direct labor for the base and 10,300 total hours for each option, including subcontractor direct labor for those subcontractors specifically identified in the Contractor's proposal as having hours included in the proposed level of effort. A breakdown of labor categories and hours is set forth in paragraph (k) below.

(b) The level of effort for this contract shall be expended at an average rate of **858** hours per month. It is understood and agreed that the rate of hours per month may fluctuate in pursuit of the technical objective, provided such fluctuation does not result in the use of the total hours of effort prior to the expiration of the term of the contract.

(c) The Contractor is required to notify the Contracting Officer when any of the following situations occur, or are anticipated to occur: If during any three consecutive months the monthly average is exceeded by 25% or, if at any time it is forecast that during the last three months of the contract less than 50% of the monthly average will be used during any given month; or, when 85% of the total level of effort has been expended.

(d) If, during the term of the contract, the Contractor finds it necessary to accelerate the expenditure of direct labor to such an extent that the total hours of effort specified would be used prior to the expiration of the term, the Contractor shall notify the Contracting Officer in writing, setting forth the acceleration required, the probable benefits which would result, and an offer to undertake the acceleration at no increase in the estimated cost or fixed fee together with an offer setting forth a proposed level of effort, cost breakdown, and proposed fixed fee for continuation of the work until expiration of the term hereof. The offer shall provide that the work proposed will be subject to the terms and conditions of this contract and any additions or changes required by then current law, regulations, or directives, and that the offer, with a written notice of acceptance by the Contracting Officer, shall constitute a binding contract. The Contractor shall not accelerate any effort until receipt of such written approval by the Contracting Officer. Any agreement to accelerate will be formalized by contract modification.

(e) The Contracting Officer may, by written order, direct the Contractor to accelerate the expenditure of direct labor such that the total hours of effort specified in paragraph (a) above would be used prior to the expiration of the term. This order shall specify the acceleration required and the resulting revised term. The Contractor shall acknowledge this order within five days of receipt.

(f) If the total level of effort specified in paragraph (a) above is not provided by the Contractor during the term of this contract, the Contracting Officer shall either (i) reduce the fixed fee of this contract as follows:

$$\text{Fee Reduction} = \text{Fixed Fee} \times \frac{(\text{Required LOE Hours} - \text{Expended LOE Hours})}{\text{Required LOE Hours}}$$

or (ii) subject to the provisions of the clause of this contract entitled "Limitation of Cost," require the Contractor to continue to perform the work until the total number of hours of direct labor specified in paragraph (a) shall have been expended, at no increase in the fixed fee of this contract.

(g) In the event the government fails to fully fund the contract in a timely manner, the term of the contract may be extended accordingly with no change to cost or fee. If the government fails to fully fund the contract, the fee will be adjusted in direct proportion to that effort which was performed.

(h) Notwithstanding any of the provisions in the above paragraphs, the Contractor may furnish hours up to five percent in excess of the total hours specified in paragraph (a) above, provided that the additional effort is furnished within the term hereof, and provided further that no increase in the estimated cost or fixed fee is required, and no adjustment in the fixed fee shall be made provided that the Contractor has delivered at least 95% of the level of effort required in paragraph (a) above.

(i) It is understood that the mix of labor categories provided by the Contractor under the contract, as well as the distribution of effort among those categories, may vary considerably from the initial mix and distribution of effort which was estimated by the government or proposed by the Contractor.

(j) Nothing herein shall be construed to alter or waive any of the rights or obligations of either party pursuant to the Clause entitled "Limitation of Costs" or "Limitation of Funds," either of which clauses as incorporated herein applies to this contract.

(k) The anticipated breakdown by labor category for the base year and each option year is as follows:

<u>Labor Category</u>	<u>Hours</u>
Research Physicist	1900
Electrical/Electronics Technician	1900
Research Physicist/Computer Programmer	800
Materials Engineer/Scientist	1900
Physicist/Electrical Engineer	1900
Total Hours	10300

H-4 ONR 5252.235-9714 - REPORT PREPARATION (FEB 02)

Scientific or technical reports prepared by the Contractor and deliverable under the terms of this contract will be prepared in accordance with format requirements contained in ANSI/NISO Z39.18-1995, Scientific and Technical Reports: Elements, Organization, and Design.

H-5 ELECTRONIC AND INFORMATION TECHNOLOGY (EIT)

In accordance with Section 508 of the Rehabilitation Act of 1973 (29 U.S.C. 794d), all EIT supplies and services provided under this contract must comply with the applicable accessibility standards issued by the Architectural and Transportation Barriers Compliance Board at 36 CFR part 1194 (see FAR Subpart 39.2). Electronic and information technology (EIT) is defined at FAR 2.101.

H-6 OPTION TO EXTEND THE TERM OF THE CONTRACT

This contract shall be renewable at the unilateral option of the Government by the Contracting Officer giving written notice of renewal to the Contractor within the existing term of the contract. The Government may exercise its option to renew the contract a total of four times and each such renewal shall extend the term of the contract by twelve (12) months. The Contractor agrees that performance under each such renewal shall be accomplished in accordance with all of the terms and conditions of this contract and at the estimated cost and fixed fee set forth below:

H-7 ON-SITE USE OF GOVERNMENT PROPERTY

Government facilities and equipment specified or approved for use in the performance of any portion of the contract at the U.S. Naval Research Laboratory (NRL) or any of its field sites may be used by the contractor's personnel on a rent free basis. All such property shall be considered to remain in the possession and control of the NRL for property responsibility and accountability purposes.

H-8 REPRESENTATIONS AND CERTIFICATIONS

The Contractor's completed Representations, Certifications, and Other Statements of Offerors or Respondents is incorporated herein by reference in any resultant award.

H-9 SUBCONTRACTING PLAN

The contractor's Comprehensive Small Business Subcontracting Plan is incorporated into this contract in accordance with DFARS SUBPART 219.7 *Test Program for Negotiation of Comprehensive Small Business Subcontracting Plans*.

L-7 DFARS 252.227-7017 - IDENTIFICATION AND ASSERTION OF USE, RELEASE, OR DISCLOSURE RESTRICTIONS (JUN 1995)

- (a) The terms used in this provision are defined in following clause or clauses contained in this solicitation—
 - (1) If a successful offeror will be required to deliver technical data, the Rights in Technical Data--Noncommercial Items clause, or, if this solicitation contemplates a contract under the Small Business Innovative Research Program, the Rights in Noncommercial Technical Data and Computer Software--Small Business Innovative Research (SBIR) Program clause.
 - (2) If a successful offeror will not be required to deliver technical data, the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause, or, if this solicitation contemplates a contract under the Small Business Innovative Research Program, the Rights in Noncommercial Technical Data and Computer Software--Small Business Innovative Research (SBIR) Program clause.
- (b) The identification and assertion requirements in this provision apply only to technical data, including computer software documents, or computer software to be delivered with other than unlimited rights. For contracts to be awarded under the Small Business Innovative Research Program, the notification requirements do not apply to technical data or computer software that will be generated under the resulting contract. Notification and identification is not required for restrictions based solely on copyright.
- (c) Offers submitted in response to this solicitation shall identify, to the extent known at the time an offer is submitted to the Government, the technical data or computer software that the Offeror, its subcontractors or suppliers, or potential subcontractors or suppliers, assert should be furnished to the Government with restrictions on use, release, or disclosure.
- (d) The Offeror's assertions, including the assertions of its subcontractors or suppliers or potential subcontractors or suppliers shall be submitted as an attachment to its offer in the following format, dated and signed by an official authorized to contractually obligate the Offeror:

Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of
Technical Data or Computer Software.

The Offeror asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following technical data or computer software should be restricted:

- (e) An offeror's failure to submit, complete, or sign the notification and identification required by paragraph (d) of this provision with its offer may render the offer ineligible for award.
- (f) If the Offeror is awarded a contract, the assertions identified in paragraph (d) of this provision shall be listed in an attachment to that contract. Upon request by the Contracting Officer, the Offeror shall provide sufficient information to enable the Contracting Officer to evaluate any listed assertion.

L-8 GOVERNMENT-FURNISHED PROPERTY

No material, labor, or facilities will be furnished by the Government unless provided for in the solicitation.

L-9 INQUIRIES CONCERNING THE RFP

Any questions concerning the RFP must be submitted in writing to the Contracting Officer at the location noted in blocks 7 and 9 of the Standard Form 33, "Solicitation, Offer and Award," no less than fifteen (15) days before closing. The Government will not consider questions received after this date. Offerors are cautioned against directing any questions concerning this RFP to technical personnel at the Naval Research Laboratory.

L-10 PROPOSAL ORGANIZATION

(1) Information for the technical/management proposal shall be placed in Volume I and be completely separate from the business proposal (Volume II).

(2) Proposal Format and Length - No attempt is made to restrict the proposal format and style. However, the proposal should be written and organized so as to be compatible with the RFP, the Statement of Work, company's organization and accounting structure, and proposed cost estimate. Offerors are encouraged to use recycled paper and maximize the use of double sided copying when preparing responses to solicitations.

L-11 VOLUME I - TECHNICAL/MANAGEMENT PROPOSAL

REQUIRED COPIES: 1 ORIGINAL AND 4 COPIES .

(1) .It is anticipated that the offeror will propose in accordance with the level of effort breakdown identified in the RFP. Variations from that Level of Effort must be justified.

(2) The following information is required for evaluation of your technical/management :

A. QUALIFICATIONS OF PROJECT PERSONNEL

The proposer should provide convincing proof that it has, or has the ability to obtain, personnel with relevant experience in the scientific and technical areas described in the Statement of Work. These are highly specialized fields and personnel without actual experience in these areas are not acceptable. Attachment 3 of the Solicitation sets forth the desired qualifications. It is essential for the offeror to demonstrate that all key personnel will be capable of obtaining a TOP SECRET clearance. The proposal should indicate the specific personnel to be assigned to this effort, their background and pertinent experience, and the amount of effort each will be performing on this contract. This will include the education level, experience (both general and project related), and availability of sufficient key project professional and technical personnel by the prime contractor as well as any proposed subcontractor.

B. COMPANY EXPERIENCE

Proposals should provide a narrative description of company experience on projects with scientific and technical tasks similar to those required in the Statement of Work. This description should clearly show the relationship between the company's experience and the tasks required under the Statement of Work; the particular sciences addressed; and should provide details, such as project descriptions, and identification of the sponsoring agencies.

C. PAST PERFORMANCE INFORMATION

(a) Offerors shall submit the following information as part of their proposal. (*Offerors are encouraged to submit the information prior to other parts of the proposal to assist the government in reducing the length of the evaluation period.*) List the last TWO (2) contracts or subcontracts completed by the offeror or predecessor companies during the past THREE (3) years for services similar in nature to this requirement. Include in the TWO (2) contracts above any current contracts or subcontracts for similar services that were awarded at least one year prior to the date of this solicitation. Offerors that have no similar previous or current contracts should provide the requested information for proposed subcontractors that will perform major or critical aspects of the requirement or for the proposed project manager or key personnel responsible for major or critical aspects of the requirement.

1. Name of contracting organization.
2. Contract number
3. Contract type
4. Total contract value
5. Description of the contract work
6. Contracting officer and telephone number
7. Contracting officer's representative, program manager, or similar official and telephone number

(b) Offerors shall contact the contracting organizations identified pursuant to paragraph (a) as soon as possible and request them to send past performance information on the identified contracts to the address in Block 7 of the face page of this solicitation. The past performance report which is available electronically in full text at <http://heron.nrl.navy.mil/contracts/home.htm> is to be provided to the contracting organization for this purpose. If the contracting organization has already collected past performance information on the contract pursuant to FAR Subpart 42.15, the format used to collect the information may be used instead of the past performance report.

(c) Offerors may include in their proposals specific information relating to problems encountered in performing the identified contracts and any corrective actions by the offeror. Offerors should not provide general information on their performance on the identified contracts as this will be obtained from the contracting organizations.

L-12 VOLUME II - BUSINESS PROPOSAL

REQUIRED COPIES: 1 ORIGINAL AND 4 COPIES

(1) COST PROPOSAL

The offeror shall submit a business proposal that includes a cost proposal with supporting information for each cost element consistent with offeror's cost accounting system. The supporting breakdown should include such elements as materials, direct labor, indirect cost, and other costs such as travel. The offeror shall provide exhibits as necessary to substantiate each cost element. Should rates be used in the proposal which are not DCAA approved, the offeror shall provide complete documentation and the rationale for their use at time of proposal submission. However, offerors are advised to use actual labor rates of proposed personnel as the basis for estimating labor costs when practicable.

(2) SMALL BUSINESS PARTICIPATION

(a) In addition to complying with the clause at FAR 52.219-9, Small Business Subcontracting Plan (JAN 2002) with its Alternate II (OCT 2000), proposals must include information to permit evaluation

of the extent of participation of small businesses and historical black colleges or universities and minority institutions in performance of the contract. Participation to be identified may be in the form of a joint venture, teaming arrangement, or subcontract. Small business concerns that are not required by FAR 52.219-9 to submit a subcontracting plan must indicate the extent to which proposed joint ventures, teaming arrangements, or subcontracts are with historically black colleges or universities and minority institutions. Information provided should include the extent of participation of such firms in terms of the value of the total acquisition and the complexity and variety of the work such firms are to perform.

(b) Proposals must also include information to permit evaluation of the extent of participation of small disadvantaged business concerns in performance of the contract. See the provision at FAR 52.219-24, Small Disadvantaged Business Participation Program--Targets (OCT 2000), and the clause at 52.219-25, Small Disadvantaged Business Participation Program--Disadvantaged Status and Reporting (OCT 1999). Any targets will be incorporated into and become part of any resulting contract. Information provided should include the extent of participation of such firms in terms of the value of the total acquisition and the complexity and variety of the work such firms are to perform.

L-13 CRITERIA FOR ALTERNATE PROPOSALS

Proposals submitted in response to this solicitation are not limited to the suggested approaches of the acquisition data furnished. In order to be evaluated, alternate proposals must offer technical improvements or modifications which are to the overall benefit of the Government. Offerors are encouraged to submit alternate proposals containing new ideas, unique approaches or other significant beneficial program improvements. The alternate proposal will be evaluated in accordance with the evaluation criteria. If the alternate proposal is considered most advantageous to the Government but involves a substantive or material departure from the stated basic proposal requirements or the stated evaluation criteria, all offerors shall be given an opportunity to submit new or amended proposals on the basis of the revised requirements provided this can be done without revealing to the other offerors innovative solutions or techniques or other information entitled to protection from disclosure. The Government reserves the right to award a contract based upon an alternate proposal which meets the government's technical requirements and is otherwise awardable in accordance with the evaluation and award criteria.

SECTION M EVALUATION FACTORS FOR AWARD

M-1 EVALUATION

Award will be made to that offeror whose proposal is determined to be the best value to the Government, proposed cost and other factors considered. The Government reserves the right to make award to other than the low offeror. Although technical considerations are more important than the cost factor, the closer the technical scores of the various proposals are to one another, the more important the business considerations become.

M-2 EVALUATION FACTORS FOR AWARD

Proposals will be evaluated in accordance with the following criteria. The technical factor is more important than the cost factor.

M-2-1. TECHNICAL/MANAGEMENT**(1) QUALIFICATIONS OF PROJECTED PERSONNEL**

The proposed personnel will be evaluated on the offerors demonstrated ability to provide personnel with (1) the appropriate qualifications set forth in Attachment NO. 3 of the Solicitation; (2) actual relevant experience in the technical and scientific areas set forth in the Statement of Work; and, (3) the ability to obtain a TOP SECRET clearance prior to commencing work.

(2) COMPANY EXPERIENCE

The proposal will be evaluated on the offeror's demonstrated company experience in performing projects requiring scientific and technical effort that is closely similar to related to the effort required by the Statement of Work. Experience in supporting efforts involving low observables technology will be give the greatest consideration.

The soundness of the Offeror's technical approach, including the Offeror's understanding of the technical requirement.

(3) PAST PERFORMANCE

Past performance will be evaluated on the basis of the quality of the work performed, timeliness of performance, cost control, and business relations. The evaluation will be based on the information provided pursuant to Section L and other sources if available. The evaluation will take into account past performance information regarding predecessor companies, subcontractors that will perform major or critical aspects of the requirement, or the proposed project manager or key personnel responsible for major or critical aspects of the requirement. Offerors that have no relevant performance history or for which past performance information is not available will not be evaluated favorably or unfavorably on past performance. The government may begin proposal evaluation prior to receipt of past performance information. If, after completion of proposal evaluation except evaluation of past performance, the contracting officer determines that evaluation of past performance will not affect the outcome of competitive selection, the contracting officer may waive its evaluation in accordance with FAR 15.304(c)(3)(iv).

M-2-2 COST TO THE GOVERNMENT

Proposed estimated cost to the Government. The Government may adjust the proposed cost for purposes of evaluation based upon an evaluation of cost realism. Cost Realism means that the costs in an offeror's proposal are realistic for the work to be performed; reflect a clear understanding of the requirements; and are consistent with the various elements of the offeror's technical proposal. The cost realism evaluation includes an analysis of the adequacy of the hours, labor mix, and other direct costs to perform the work as proposed in the technical proposal as well as the proposed labor and indirect rates. It also includes evaluation of the likelihood that the risks inherent in the offeror's technical approach will result in higher actual costs than anticipated.

M-2-3 SMALL BUSINESS PARTICIPATION

(a) The extent of participation of small businesses and historically black colleges or universities and minority institutions in performance of the contract will be evaluated on the basis of the proposed extent of participation of such firms in terms of the value of the total acquisition and the complexity and variety of the work such firms are to perform.

(b) The extent of participation of small disadvantaged business concerns in performance of the contract will be evaluated on the basis of the proposed extent of participation of such firms in terms of the value of the total acquisition and the complexity and variety of the work such firms are to perform.

M-3 FAR 52.217-5 - EVALUATION OF OPTIONS (JUL 1990)

Except when it is determined in accordance with FAR 17.206(b) not to be in the Government's best interests, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

STATEMENT OF WORK

1.0 Scope

This is a multifaceted effort of on-site support of research efforts by the Signature Technology Office (STO). The research objectives are three-fold. First, to develop methods and materials for achieving ultra-high levels of signal isolation between antennas. Second, to implement the design, prototype manufacture, and characterization of selected low-observables materials and techniques for test bodies and to simulate their effectiveness in a military scenario. Third, to upgrade, maintain, organize, and operate the STO laboratories, These objectives will require the design of new material constructs as well as the development of advanced composites and engineered materials (e.g. "metamaterials"). These engineered materials include Left Handed Materials (LHM) which have a negative index of refraction, and other metamaterial concepts, including Frequency Selective Surfaces (FSS), Photonic-Band Gap (PBG) materials, percolation materials, and high-impedance surfaces. The objectives will also require a thorough understanding of the microscopic and macroscopic properties which influence the effectiveness of microwave/infrared/visual signature reduction materials and their impact on electromagnetic energy in both the near and far field. This involves the design, calibration, and utilization of specialized instrumentation for the determination of intrinsic material properties (permeability, permittivity, and emissivity), macroscopic reflection and absorption of these materials and the measurement of near field electromagnetic energy. Computer modeling will be used to determine electromagnetic reflection and propagation properties for both component materials and combined systems. Computer databases will be compiled and maintained. Provisions for the secure storage and retrieval of documented data shall be provided. STO laboratories will be upgraded, maintained, organized, and operated including 1) NRL Ultra Near Field Facility, 2) NRL Arch, 3) Focused Lens System, 4) Waveguide/Coaxial Measurement Laboratory, 5) Millimeter Wave Laboratory, 6) Infrared/Visual Laboratory, 7) Hyperspectral Laboratory, and 8) Chemistry Laboratory and Sample Preparation Laboratory.

The project has three phases. The first year is: Upgrade, Maintain, Organize, and Operate STO Laboratories and Research on Antenna Isolation. The option years are: (1) Upgrade, Maintain, Organize, and Operate STO Laboratories and Research on Advanced Composite Materials including Left Handed Materials and (2) Upgrade, Maintain, Organize, and Operate STO Laboratories and Research on Frequency Selective Surfaces.

2.0 Statement of Work

The contractor shall provide engineering/technical support to perform the following tasks:

Year I - Upgrade, Maintain, Organize, and Operate STO Laboratories and Research on Antenna Isolation

- (A) Upgrade, maintain, organize, and operate NRL STO laboratories. These laboratories include: 1) NRL Ultra Near Field Facility, 2) NRL Arch, 3) Focused Lens System, 4) Waveguide/Coaxial Measurement Laboratory, 5) Millimeter Wave Laboratory, 6) Infrared/Visual Laboratory, 7) Hyperspectral Laboratory, and 8) Chemistry Laboratory and Sample Preparation Laboratory.
- (B) Synthesize and evaluate prototype dielectric and magnetic composite materials for antenna isolation as well as other STO research projects. Classes of materials which are of interest for antenna isolation include but are not limited to Ring-Wire "Left Handed Materials" (LHM), ferrites, fiber composites, and tubule composites.
- (C) Design, install, and maintain RF, infrared, and visual instrumentation to perform measurements of the materials in task B.
- (D) Evaluate intrinsic microwave and infrared/visual material properties and bulk electromagnetic scattering properties of the materials in task B. These measurements shall be performed from 50 MHz to 110 GHz and from 0.4 to 25 microns.
- (E) Utilize computer codes for optimization of prototype material properties and for integration into platforms (eg. shipboard and aircraft) for L.O. and antenna applications.
- (F) Separate the various contributions to the electromagnetic wave response (RF, infrared, and visible) using theoretical analysis and computer modeling of the materials in task B. Compute the microwave, infrared, and visible reflection/propagation and emission characteristics of the materials and of objects/platforms coated with the materials. Assist with maintenance, organization, and improvement of computer facilities.
- (G) Maintain and improve existing materials and document databases incorporating measured properties and generated/existing documentation.
- (H) Provide RF, infrared, and visible range test and field support for installation, testing, and long-term operational evaluation of materials, includes training, logistics and development of new fixtures.

Year 2 - Upgrade, Maintain, Organize, and Operate STO Laboratories and Research on Advanced Composite Materials including Left Handed Materials

- (A) Upgrade, maintain, organize, and operate NRL STO laboratories. These laboratories include: 1) NRL Ultra Near Field Facility, 2) NRL Arch, 3) Focused Lens System, 4) Waveguide/Coaxial Measurement Laboratory, 5) Millimeter Wave Laboratory, 6) Infrared/Visual Laboratory, 7) Hyperspectral Laboratory, and 8) Chemistry Laboratory and Sample Preparation Laboratory.
- (B) Synthesize and evaluate prototype dielectric and magnetic composite materials and coatings, including NRL designed/developed materials, for Left-Handed Material (LHM) Research as well as other STO research projects. Classes of materials include but are not limited to Ring-Wire "Left Handed Materials", ferrites, and fiber composites. They also include nano fiber loaded materials and nano-scale particulate loaded sheets.
- (C) Design, install, and maintain RF, infrared, and visual instrumentation to perform measurements of the materials in task B.
- (D) Evaluate intrinsic microwave and infrared/visual material properties and bulk electromagnetic scattering properties of the materials in task B. These measurements shall be performed from 50 MHz to 110 GHz and from 0.4 to 25 microns.
- (E) Utilize computer codes for optimization of prototype material properties and for integration into platforms (eg. shipboard and aircraft) for L.O. and antenna applications.
- (F) Separate the various contributions to the electromagnetic wave response (RF, infrared, and visible) using theoretical analysis and computer modeling of LHM and other materials in task B. Compute the microwave, infrared, and visible reflection/propagation and emission characteristics of the materials and of objects/platforms coated with the materials. Assist with maintenance, organization, and improvement of computer facilities.
- (G) Maintain and improve existing materials and document databases incorporating measured properties and generated/existing documentation.
- (H) Provide RF, infrared, and visible range test and field support for installation, testing, and long-term operational evaluation of materials, includes training, logistics and development of new fixtures.

Year 3 - Upgrade, Maintain, Organize, and Operate STO Laboratories and Research on Frequency Selective Surfaces

- (A) Upgrade, maintain, organize, and operate NRL STO laboratories. These laboratories include: 1) NRL Ultra Near Field Facility, 2) NRL Arch, 3) Focused Lens System, 4) Waveguide/Coaxial Measurement Laboratory, 5) Millimeter Wave Laboratory, 6) Infrared/Visual Laboratory, 7) Hyperspectral Laboratory, and 8) Chemistry Laboratory and Sample Preparation Laboratory.
- (B) Synthesize and evaluate prototype dielectric and magnetic composite materials and coatings, including NRL designed/developed materials, for research on Frequency Selective Surfaces (FSS) as well as other STO research projects. Classes of materials include but are not limited to FSS metamaterials with conducting, dielectric, and ferrite constituents as well as other ferrite and fiber composite materials and high impedance surfaces.
- (C) Design, install, and maintain RF, infrared, and visual instrumentation to perform measurements of the materials in task B.
- (D) Evaluate intrinsic microwave and infrared/visual material properties and bulk electromagnetic scattering properties of the materials in task B. These measurements shall be performed from 50 MHz to 110 GHz and from 0.4 to 25 microns.
- (E) Utilize computer codes for optimization of prototype material properties and for integration into platforms (eg. shipboard and aircraft) for L.O. and antenna applications.
- (F) Separate the various contributions to the electromagnetic wave response (RF, infrared, and visible) using theoretical analysis and computer modeling of FSS and other materials in task B. Compute the microwave, infrared, and visible reflection/propagation and emission characteristics of the materials and of objects/platforms coated with the materials. Assist with maintenance, organization, and improvement of computer facilities.
- (G) Maintain and improve existing materials and document databases incorporating measured properties and generated/existing documentation.
- (H) Provide RF, infrared, and visible range test and field support for installation, testing, and long-term operational evaluation of materials, includes training, logistics and development of new fixtures.

12. PUBLIC RELEASE. Any information (*classified or unclassified*) pertaining to this contract shall not be released for public dissemination except as provided by the Industrial Security Manual or unless it has been approved for public release by appropriate U.S. Government authority. Proposed public releases shall be submitted for approval prior to release Direct Through (*Specify*)

COMMANDING OFFICER, NAVAL RESEARCH LABORATORY, WASHINGTON, DC 20375-5320, CODE 5050

to the Directorate for Freedom of Information and Security Review, Office of the Assistant Secretary of Defense (Public Affairs)* for review.
 *In the case of non-DoD User Agencies, requests for disclosure shall be submitted to that agency.

13. SECURITY GUIDANCE. The security classification guidance needed for this classified effort is identified below. If any difficulty is encountered in applying this guidance or if any other contributing factor indicates a need for changes in this guidance, the contractor is authorized and encouraged to provide recommended changes; to challenge the guidance or the classification assigned to any information or material furnished or generated under this contract; and to submit any questions for interpretation of this guidance to the official identified below. Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended. (*Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any documents/guides/extracts referenced herein. Add additional pages as needed to provide complete guidance.*)

Access to classified information is not required for the purpose of submitting a bid/proposal for this statement of work. However, prior to award of contract, the successful contractor will be required to have a TOP SECRET facility clearance, SECRET storage capabilities, and personnel available with DoD granted personnel security clearances commensurate with level of access required for performance of contract.

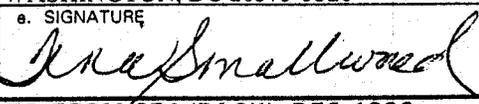

14. ADDITIONAL SECURITY REQUIREMENTS. Requirements, in addition to ISM requirements, are established for this contract. Yes No
 (*If Yes, identify the pertinent contractual clauses in the contract document itself, or provide an appropriate statement which identifies the additional requirements. Provide a copy of the requirements to the cognizant security office. Use Item 13 if additional space is needed.*)

15. INSPECTIONS. Elements of this contract are outside the inspection responsibility of the cognizant security office. Yes No
 (*If Yes, explain and identify specific areas or elements carved out and the activity responsible for inspections. Use Item 13 if additional space is needed.*)

16. CERTIFICATION AND SIGNATURE. Security requirements stated herein are complete and adequate for safeguarding the classified information to be released or generated under this classified effort. All questions shall be referred to the official named below.

PERSONNEL QUALIFICATIONS

"Although the use of the terms "minimum and "required" is used below, proposals offering less education or experience will be considered."

(a) Research Physicist

1. Minimum Experience: B.S. (physical science) or equivalent
2. Years of Experience: 2 or more (MS or PhD substitutes for experience) highly desirable

3. Required Experience:

Specialized experience in advanced theoretical and experimental research on the interaction of microwaves with particulate loaded materials. Must have specialized research experience with the magnetic and dielectric properties of microwave materials, interfacing of computers with measurement equipment and computer analysis. Secret clearance required. Must be capable of obtaining Top Secret clearance.

(b) Electrical/Electronics Technician

1. Minimum Education: A.A./E.T.C./B.A./B.S. (Electrical Engineer, Physics, Computer Science) or equivalent
2. Years of Experience: 2 or more (MS or PhD substitutes for experience) highly desirable
3. Required Experience:

Specialized experience with microwave test apparatus, ASTM/NIST standard measurements, computer control of apparatus. Familiar with PC and IEEE-488 interface, software for data transfer processing. Secret clearance highly desired. Must be capable of obtaining Top Secret clearance.

(c) Research Physicist/Computer Programmer

1. Minimum Education: M.S./B.S. (Physics, Mathematics, Computer Engineering/Sciences) or equivalent
2. Years Experience: 4 or more PhD substitutes for experience) highly desirable
3. Required Experience:

Specialized experience in developing and maintaining RF/IR signature modeling codes. Thorough understanding of electromagnetic theory and solid state physics. Secret clearance required. Must be capable of obtaining Top Secret clearance.

(d) Computer Programmer

1. Minimum Education: A.A.,B.S, (physics, computer engineering, computer programming, electrical engineering) or equivalent
2. Years of Experience: 2 or more (NIS or PhD substitutes for experience) highly desirable
3. Required Experience:

Specialized experience in engineering programming in support of data reduction, data analysis and computer graphics data presentation. Good communications and writing skills. Secret clearance required. Must be capable of obtaining Top Secret clearance.

(e) Materials Engineer/Scientist

1. Minimum Education: B. S. (mechanical, electrical or materials engineer, materials science, physics, chemistry) or equivalent
2. Years of Experience: 2 or more (MS or PhD substitutes for experience) highly desirable

3. Required Experience:

Specialized experience performing chemical research on solid dielectric materials. Skilled in the synthesis and electromagnetic characterization of such materials. Experience with engineering software for the analysis of data. Good communications and writing skills. Secret clearance highly desired. Must be capable of obtaining Top Secret clearance.

(f) Physicist/Electrical Engineer

1. Minimum Education: B.S. (physics or electrical engineering) or equivalent
2. Years of Experience: 2 or more (NIS or PhD substitutes for experience) highly desirable

3. Required Experience:

Specialized experience with electronic instrumentation and electromagnetic measurement techniques. Familiar with PC software and hardware for data transfer, analysis, and storage, Good communications and writing skills. Secret clearance highly desired. Must be capable of obtaining Top Secret clearance.
