

## 66 -- Multiband Mid-Infrared Laser Transmitter

- [Combine Synopsis/Solicitation](#) - Posted on Jun 30, 2004

### General Information

Document Type: Amendment to Combined Synopsis/Solicitation  
Solicitation Number: N00173-04-R-SE06  
Posted Date: Jul 07, 2004  
Original Response Date: Jul 15, 2004  
Current Response Date: Jul 15, 2004  
Original Archive Date: Jun 30, 2005  
Current Archive Date: Jun 30, 2005  
Classification Code: 66 -- Instruments & laboratory equipment  
Naics Code: 334413 -- Semiconductor and Related Device Manufacturing

### Contracting Office Address

Department of the Navy, Office of Naval Research, Naval Research Laboratory/STENNIS, John C. Stennis Space Center, Stennis Space Center, MS, 39529-5004

### Description

The purpose of this amendment is to answer questions from potential offerors as follows:

Question 1) There is specific reference to Solid-state technology in the solicitation. Would a purely semiconductor approach be acceptable?

ANSWER: The Government desires a solid-state system due to commercial availability of the solid-state design; however, the government will consider alternative systems provided they meet all the specified requirements including providing supporting information sufficient to demonstrate acceptable low-risk and are competitively priced.

Questions 2) Is the 90 days a strict requirement?

ANSWER: The 90 day delivery requirement is hereby revised to: The Government desired delivery is 90 days from date of award. Offeror's proposing delivery time longer than 90 days should provide a schedule

detailing activity to allow consideration regarding program schedule risk.

Question 3) Is there a dollar value associated with this procurement?

ANSWER: Yes, it is anticipated that this procurement will not exceed \$175,000.00. Offerors should provide documentation that their proposed price is the same or better than current market or catalog pricing offered to the general public.
