Original Archive Date: Oct 26, 2005
Current Archive Date: Oct 26, 2005
Classification Code: A -- Research & Development
Set Aside: Total Small Business
Naics Code: 541710 -- Research and Development in the Physical, Engineering, and Life Sciences

Contracting Office Address

Department of the Navy, Office of Naval Research, Naval Research Laboratory, 4555 Overlook Ave.
S.W., Washington, DC, 20375

Description

The Naval Research Laboratory has a requirement for scientific, engineering and technical and analytical support for High Assurance Information Systems. The support services include a number of areas; conduct research and development in techniques for processing and communicating data that preserve critical system properties, such as security, safety, availability, and timely delivery of computational results, and improve formal methods for analyzing and developing software and hardware systems. These areas include the research, development, and design of high assured building blocks for trustworthy systems, cryptographic devices in high assurance systems, high assurance real-time systems, system requirements engineering, trustworthy database management systems, networks, and distributed systems,

the management of distribution of cryptographic keys, the foundations of security, information warfare technology, and information security capabilities. The expected period of performance is for 12 months with four (4) 12-month option periods and will consist largely of on-site support at the Naval Research Laboratory. The contractor shall provide, on a level-of-effort basis, forty six thousand eighty (46,080) scientific, technical, engineering, and support hours for the basic award and forty six thousand eighty (46,080) scientific, technical, engineering, and support hours for each option, if exercised. All personnel must be U.S. citizens and have a Secret level security clearance; a special background investigation (SBI) level clearance will be required for performance of some efforts.
