### Description

The Naval Research Laboratory (NRL) has a requirement for Research Development and Engineering (RD&E) Services in the following task areas: Distributed Simulation Technologies; Electronic Warfare Analysis; and Computer Modeling and Simulation. ENEWS is tasked with developing simulations of naval EW systems, and anti-ship threats, and military communication systems to support the development, fielding and testing of electronic and weapons systems. Work is to be performed on-site at the Naval Research Laboratory (NRL), Washington, DC. The contractor must provide approximately 37,640 hours of analytical, scientific, technical, engineering and administrative support on

a level-of-effort basis. The Government anticipates a 12-month period of performance with four Options that will extend the period of performance for an additional 12 months each, if exercised. The Government anticipates an award of a Cost Plus Fixed Fee (CPFF) term type of contract. The Statement of Work, labor categories, and minimum personnel qualifications will be included in the solicitation package. A detailed solicitation and a statement of work will be posted on NRL's website: <http://heron.nrl.navy.mil/contracts/listrfp.htm>. The incumbent contractor is ITT Industries, Inc, at 2560 Huntington Avenue, Alexandria, VA 22303. This is a 100% Small Business Set-Aside. Paper copies of the Request for Proposal (RFP) will not be provided. The NRL uses Electronic Commerce (EC) to issue RFPs and amendments to the RFPs. All responsible sources may submit a bid, proposal which shall be considered by the agency. Notes 1 and 26 applies.
