Description

The purpose of this amendment is to address potential offeror's questions.

Question 1: Is there some flexibility in the size of the system packaging? For example, Item 5 states that the unit shall be rack mountable in a 19 inch COTS rack, while item 7 shows a dimension of 14 inches wide. Which is preferred?

Answer to Question 1: The rack mount is specified as 19 inches COTS and is preferred.

Question 2: Would a Klyston be acceptable instead of a TWT?

Answer to Question 2: No.

Question 3: If yes, is it acceptable to provide tuning for the separate bands or do you require instantaneous bandwidth?

Answer to Question 3: Instantaneous bandwidth is required.

Question 4: Item 4 states that the unit must provide IEEE-488 remote control interfacing while under Item 6 Remote Control (RCU) the specification call for a Z-World Controller, RS-232 interface. Which is preferred?

Answer to Question 4: Both are required.

Question 5: Is there any other background regarding the application that is unclassified that could be shared to better understand the requirements?

Answer to Question 5: No.
