Synopsis:

Added: May 13, 2008 12:56 pm

The Naval Research Laboratory (NRL) has a requirement for Information Technology (IT) and functional business analysis support to operate, maintain, and upgrade NRL management information and business operations systems processes. The systems span business application functions such as budgeting, accounting, sponsor billing, procurement, contracting, inventory, human resources, and asset and hazardous materials management. Hardware and Software maintenance, end-user support, and business functions support is required to keep the business processes functioning efficiently in the Navy Working Capital Fund (NWCF) business arena necessitated by requirements changes, technological advances or problems, and integration of NRL business processes with external Navy and DoD systems. A Cost-Plus-Fixed-Fee term type contract is anticipated with a period of performance including a basic award of twelve months with four 12-month options, if exercised. The anticipated level of effort is 43,700 for the basic contract and 43,700 for each option, if exercised. Similar services are currently being provided by Information Delivery Systems at 7305 Quetzal Drive, Bowie, MD 20720 and STI Systems Corp at 4633 Linmar Ct, Alexandria, VA 22312 under contract numbers N00173-02-D-2056 and N00173-02-D-2057, respectively. Multiple awards may be made as a result from this procurement. NRL uses Electronic Commerce (EC) to issue Requests for Proposals (RFPs) and amendments to RFPs. Paper copies of the RFP will

not be provided. This is not a solicitation. The actual closing date for proposals will be stated in the solicitation when issued. All responsible sources may submit a bid, proposal, or quotation which shall be considered by the agency. Other business opportunities for NRL are available at our website <http://heron.nrl.navy.mil/contracts/rfplist.htm>.
